

NAAGA SUMUKH B S

Bengaluru, India [Gmail](#) +91 99723 71999 [LinkedIn](#) [Github](#) [Portfolio](#)

OBJECTIVE

Information Science and Engineering undergraduate (2023–2027) passionate about developing AI-enabled software and scalable full-stack applications that solve real-world problems.

EDUCATION

B.E., Information Science and Engineering – NMIT, Bengaluru	2023–2027	CGPA: 7.99
Pre-University (PU) – Siddaganga PU College	2020–2022	Score: 95%
Class X (CBSE)	2020	Score: 91.2%

SKILLS

Languages: Python, JavaScript, TypeScript, SQL, C, R
Frameworks: React, Tailwind CSS, Node.js, REST APIs
AI & ML: Generative AI, Machine Learning, NLP, RAG, LLMs, Prompt Engineering, MCP, AI Automation, Scikit-learn, Pandas, NumPy, TF-IDF, Random Forest
Databases & Cloud: Supabase, PostgreSQL, Row Level Security (RLS)
Tools: Git, GitHub, Jupyter Notebook, Google Colab, Playwright, n8n, Lovable, Power BI, Canva
Currently Learning: AWS, Docker, Kubernetes, FastAPI, CI/CD
Soft Skills: Leadership, Communication, Collaboration

PROJECTS

[SachhAI – AI Interview Integrity & Candidate Verification Platform](#) [Video](#)

- Developed an AI-powered interview integrity platform that evaluates candidate authenticity using linguistic, behavioural, and interaction-based features to identify AI-assisted responses during technical interviews.
- Built a machine learning pipeline achieving **88.4% accuracy**, generating explainable recruiter reports with authenticity scores, plagiarism insights, and candidate risk assessment.
- It is designed as an Extension for Chrome which detects AI assistance in platforms like Google Meet.

[EasyHospital – AI-Powered Multi-Hospital Management Platform](#) [Live](#)

- Developed an AI-powered multi-hospital healthcare platform supporting appointments, digital prescriptions, pharmacy management, referrals, family accounts, and secure role-based access.
- Integrating AI Chat, AI Voice, Retrieval Augmented Generation (RAG), Model Context Protocol (MCP), Google Calendar synchronization, and secure medical document management to improve healthcare accessibility for elderly users. Engineered a scalable full-stack solution with secure healthcare workflows, AI automation.

[JobShield – AI-Powered Recruitment Fraud Detection Platform](#) *Final Year Project*

- Developed an AI-powered recruitment fraud detection platform that analyses recruiter credibility, job descriptions, company metadata, and publicly available information using Natural Language Processing.
- Built an explainable machine learning pipeline to classify job postings as Genuine, Suspicious, or High Scam Risk while providing transparent reasoning behind every prediction.
- Designed an intelligent fraud analysis system to improve candidate safety through automated job verification.

EXPERIENCE

Founder and Event Lead – Adwaita Club, NMIT *Oct 2023– Mar 2025*

Established 2 institutional MOUs and conducted college-level health camps; volunteered at an AI Summit in collaboration with Rabbitt AI. Organized 5 guest events with end-to-end execution and financial management; mentored students toward successful placements.

Digital Marketing Intern – LinkedInforHER, Bengaluru *Mar 2024– Jan 2025*

Created and published professional content across digital platforms; built automated LinkedIn and YouTube content-posting pipelines using AI-driven workflow tools (N8N, Antigravity) to improve reach and engagement.

Development Team Lead – Official College FDP Portal *May 2025–2026*

Led the development team in building the college’s official Faculty Development Program (FDP) Portal; coordinated project planning, feature implementation, and faculty collaboration; Delivered a production-ready portal currently under institutional review for deployment.

CERTIFICATIONS

- [Machine Learning Specialization](#) (Coursera) | [Generative AI Track](#) (Credly) | [Power BI Essentials](#) (Simplilearn)

ACTIVITIES AND ACHIEVEMENTS

- Achieved **1M+** impressions on LinkedIn; ranked among top **0.095%** users globally in 2024 (Cleve AI).
- Built and deployed **content automation** pipelines for LinkedIn and YouTube using AI-driven workflow tools.
- Volunteered in Book Donation Drive under BooksforHer initiative at IIMB and Saanidhya, Mangalore.
- Secured 3rd place in the college-level **Thinkathon event** (competitive ideation and problem-solving challenge).
- Conducted a career guidance and industry-readiness program for ISE department students at NMIT.
